

LOFT

by **FERMAX**

AUDIO DOOR ENTRY SYSTEM

LOFT TELEPHONE

The **LOFT telephone** for indoors allows the communication with the outdoor panel as well as the opening of the access door.

It is manufactured in high impact ABS plastic. It has a textured finish for easy cleaning, as well as ultraviolet protection.

LOFT TELEPHONE

A magnet located in the handset allows it to hang safely, avoiding it to fall.

Wall surface installation. It has a curly cord with phone plug type connectors.

PERFORMANCE

The **Loft Telephone** includes as standard a call to guard and door opener button .

The **Extra** version has 2 pushbuttons (F1-F2) for additional functions: switch on lights, open a second door, panic call, etc.

It includes volume control and allows selecting 2 call tones.

BASIC Model

EXTRA Model

Telephone with DECORATIVE FRAME

ACCESSORIES

The **decorative frame** is an aesthetic element as well as a way of preventing the wall from getting dirty.

In replacements applications, for covering the hole left by the old equipment.
